## MVCC Santa Monica Airport Survey Comments

1

07/06/08                      Airport Ave. 3000 Blk

**Aircraft Noise.**

- 1) Silent airplanes are in trouble. 3) No cars, no planes, no horses? All bare feet?

**Fumes/Soot**

- 6) In mid runway, not down wind. 7) Rebreathe air is life in LA under the inversion level.
- 

2

05/06/08                      Glyndon Ave. 1500 Blk

**Aircraft Noise**

- 1) On the weekends it seems to be non-stop noise. 3) I don't know what is propeller vs. jet. I timed it one weekend and there was a plane leaving once a minute for 15 minutes straight. 15 planes in 15 minutes!! 8) The noise is becoming unbearable. It is unfair to the people of this neighborhood and is sure to drive property values down. This in turn will drive down tax revenues.
- 

3

04/08                              Redwood Ave. 3700 Blk

**Aircraft Noise**

- 1) The car traffic outside my window is VERY loud and irritating. To be honest, I'm not sure I can tell the difference between planes and cars. 3) I try to tune these sounds out.

**Fumes/Soot**

- 5) I don't know what smell this is. There are a lot of unpleasant smells washing around in LA. My neighborhood smells all right. Lots of flowers? 8) I didn't know there were any [other health, safety concerns]. This does

concern me.

---

4

06/01/08 Cabrillo Blvd. 3400 Blk

**Aircraft Noise**

- 1) At times it is disturbing when they fly low. 3) At times it is scary. 8) Planes have crashed nearby.

5

04/28/08 Beverlywood St. 9000 Blk

**Aircraft Noise**

- 1) Helicopter noise has become incessant.

**Fumes/Soot**

- 8) Exhaust has known carcinogens including Benzene.
- 

6

03/30/03 Colonial Ave. 3500 Blk

**Aircraft Noise**

- 1) It is only certain planes, jets and some prop engines.

**Fumes/Soot**

- 5) Only at park or friends to east of SM airport. 6) Only within a few blocks. 8) [Concerned with] traffic because of lack of thoroughfare, and of course noise.
- 

7

04/14/08 Federal Ave. 2800 Blk

**Aircraft Noise**

- 1) I notice [prop noise] but it does not bother me. 2) I am at the north end of the flight path. I also work at Richland Elementary School. Sometimes [jet noise] more in “clusters” on Friday night and Sunday night.

**Fumes/Soot**

- 5) Both in my home and at Richland. Both a and b. [i.e. fumes overwhelming and physical reactions to fumes.] 6) It can be really bad during the day at Richland Elementary School. 7) Outside and inside [covered with residue]. When I moved from my condo between SM Blvd and Olympic, I had to increase my cleaning lady from every 3 weeks to every 2 weeks—can’t afford, costly. 8) Sometimes planes fly very low over my house and I wonder if they will make it to the runway. I worry about jet crashes.
- 

8

03/11/08 Dahlgren 3000 Blk

**Aircraft Noise**

- 1) We prefer the prop planes. The prop plane numbers have declined. 2) The Goodyear blimp is also loud.

**Fumes/Soot**

- 8) The noise and fumes, if allowed to continue, will have a negative effect on property values in this area.
- 

9

04/14/08 Coolidge Ave. 2700 Blk

**Aircraft Noise**

- 1) The amount of larger jets and more other planes have grown every; year. It's not the small local airport that it was when we moved her in the 50's.

**Fumes/Soot**

- 7) Our oranges and lemons and plums have residue on them when we pick them. We have to wash them thoroughly. Our outdoor furniture is covered with soot. 8) My family all have repertory problems, breathing, coughing, sneezing, eye tearing, and soreness, allergies, tiredness, ringing in our ears. The large business jets should not be allowed at SM Airport. We worry about one of them crashing in our neighborhood.
- 

10

04/19/08 Colby Ave 2600 Blk

**Aircraft Noise**

- 1) It is definitely overwhelming. I don't have peace in my own house.
- 

11

04/14/08 Barry Ave. 2600 Blk

**Aircraft Noise**

- 1) [Props] are within reason. 3) [Jets] Nite time most intrusive.
- 

12

04/27/08 Malone St. 12200 Blk

**Aircraft Noise**

- 1) [Don't notice props] but sometime depending on aircraft they can be quite loud. 3) I can't hear my phone ringing—it moves my china and glasses in the cupboard. Can't sit outside and eat because of the fumes, can't have my windows open because of the fumes.

**Fumes/Soot**

- 5) When the jets sit idling at the end the fumes are beyond overwhelming. I feel nauseated. 6) Really bad [?] around 10:30 AM and 8 PM. 7) [Residue on] outside furniture and my car. 8) Respiration problems.
- 

13

04/12/08 Veteran Ave. 2500 Blk

**Aircraft Noise**

- 1) The noise doesn't bother me.
- 

14

04/05/08 Pacifica Ave. 11900 Blk

**Aircraft Noise**

1) Air quality is a huge consideration for me. 3) Air Quality! Noise is intense in our yard when planes fly over (jets or props).

---

15

07/06/08 Preston Way 1200 Blk, Venice

**Aircraft Noise**

1) I feel that propeller aircraft id OK for leisure use, not commercial airplanes should fly. 3) NO JETS.

---

16

07/07/08 Pacific Ave. 11800 Blk

**Aircraft Noise**

1) [Don't notice noise] I live south of the airport.

---

17

06/29/08 Glencoe Ave 2300 Blk

**Aircraft Noise**

1) Sometimes cannot hear while on the phone due to overhead noise.

**Fumes/Soot**

7) Lots of soot and yellow liquid dropping. 8) Fear only a matter of time 'til there is a significant crash by either propeller or jet. Too many large jets using the facility.

---

18

06/29/08 Granville Ave. 3400 Blk

**Aircraft Noise**

1) I believe the airport is essential to commerce. I live under the south, downwind next to the Mar Vista School. 8) The airport is essential for medical evacuations and interstate commerce. I have used this airport for the last 35 years and it should be allowed to operate normally.

---

19

06/22/08 Halderman St. 3300 Blk

**Aircraft Noise**

1) Especially on weekends—particularly long weekends. 2) 1 Or 2 planes (older) make significant noise and the new jets sounds are intrusive too.

**Fumes/Soot**

5) I do smell on rare occasions. 8) Concerned of a crash. Especially the jets which now seem to take off and immediately turn into the neighborhood.

---

20

04/14/08 Barry Ave. 2700 Blk

**Aircraft Noise**

3) When jets are landing the noise overwhelms everything else. I can't hear my TV or talk on the phone.

**Fumes/Soot**

6) Its hard to cool off the house with open windows for the ocean breeze just blow exhaust my way. 7) My car is covered with soot the day after I wash it every time. 8) Going outside and breathing in jet exhaust daily because the planes rev on the strip before takeoff too long is not very good quality of life here.

---

21

07/13/08 Ashwood Ave. 3400 Blk

**Aircraft Noise**

1) [Prop or jet] I don't know which is which. I am sure they are breaking rules and since it's corporate driven, its wink, wink. 3) It is all much more than in the past.

---

22

04/27/08 Coolidge Ave. 3900 Blk

**Aircraft Noise**

3) I'm in support of people who resist jet noise at Santa Monica Airport.

**Fumes/Soot**

7) Always

---

23

05/04/08 Grand View 3000 Blk

**Aircraft Noise and Fumes**

8) Jet traffic excessive, noise and fumes intrusive, deteriorate quality- of-life in otherwise wonderful neighborhood.

---

24

05/04/08 Centinela Ave. 3600 Blk

**Fumes/Soot**

6) Walking through the neighborhood, its impossible not to be affected.  
7) [residue] Absolutely!!! 8) Huge jets right over local homes—it's very concerning!

---

25

04/14/08 Clarkson Rd. 11600 Blk

**Aircraft Noise**

3) There are a few times where the noise from incoming jets approaching the airport has been "overwhelming."

**Fumes/Soot**

7) [Residue on] shrubs and fruit. 8) Developed a cough. Cancer that may or may not be related to particulate matter!

---

26

04/15/08 Purdue Ave. 2600 Blk

**Aircraft Noise**

1) Late afternoons are especially bad and weekends. I enclosed my outdoor patio. 3) You cannot hear or play with your children. My 5 year old grandson asked me “Why do all these airplanes go over our house?”

**Fumes/Soot**

5) We no longer eat outside. 8) I never would have moved here if I had known these jets would be at the airport. There have been too many accidents with small planes, there will be a disaster when a larger plane comes down.

---

27

04/15/08 Purdue Ave. 2600 Blk

**Aircraft Noise**

1) Airport officials are extremely insensitive. They say, “Get the ID numbers of the planes!!” 3) Jet passes over in less than a second plus too high.

**Fumes /Soot**

7) [Residue on] cars—fuel on cars. 8) [Other concerns?] Isn’t “pollution”, noise and the possibility of a crash enough???

---

28

04/06/08 Venice Blvd. 12600 Blk

**Fumes/Soot** 7) my car

29

04/13/08 Butler Ave. 2800 Blk

**Aircraft Noise**

1) We live a distance from the actual runway. 8) The noise of planes coming in for a landing is apparent.

---

30

04/14/08 Federal Ave. 2600 Blk

**Aircraft Noise**

3) I have had noise issues with jet aircraft for 17 years with the airport. I am in the landing pattern and when winds reverse, the take-off pattern.

**Fumes/Soot**

5) I have developed a chronic sinusitis condition. I have brown spots on my car and on my Sunumbria patio furniture upholstery. 8) There have been several small plane crashes upon landing in North Westdale area over the 40 years I have lived here. The noise is disruptive. I cannot entertain in my backyard on Sunday evenings when many jets are coming in for the work week ahead. My property values have been affected as a result of being in or near the landing pattern.

---

31

04/14/08 Butler Ave. 2600 Blk

**Aircraft Noise**

- 1) There are not many prop planes left—so not so great a problem as jets. 3) Very bad on weekends especially on Sunday.

**Fumes/Soot**

5) I have pool and there is always a scum on top of water every A.M. 7) Also residue on cars. 8) Some worry of planes crashing into home. I am on flight path—opposite Webster [Middle School] parking lot—there was a crash across the street onto Webster P.E. field 3-4 years ago. Also a crash on east side of Barrington some years ago.

---

32

04/05/08 Boise Ave. 3700 Blk

**Aircraft Noise**

1& 3) It really depends on how the wind blows and the time of year. 8) I think it offers more than we give it credit for. I do wish at night that they curtail flights after 9pm. Otherwise, I don't have a problem with the airport.

---

33

04/13/08 Hill St. 1300 Blk. Santa Monica

**Aircraft Noise**

1) Propellers seems less now than 5 years ago. 3) Large jet noise has grown way too fast.

**Fumes/Soot**

5) You can really smell it! 8) Jets seem too large for such a dense residential neighborhood.

---

34

04/06/08 Berkshire 2700 Blk

**Aircraft Noise**

1) [Props] not so bad.

**Fumes/Soot**

6) Depends of wind. 7) Soot. 8) Asthma—present in neighborhood. Bad for babies and elderly.

---

35

04/06/08 Marines St. 12300 Blk

**Fumes/Soot**

5) Airstrip [?] should be able to accommodate the class C and D aircraft. 7) S.W. facing windows. 8) Breathing kerosene is unhealthy for humans and other living creatures.

---

36

03/30/08 Inglewood Blvd. 4000 Blk

**Fumes/Soot**

7) Not sure if this is related to airport or just LA in general.

---

37

03/30/08 Palms Blvd. 1300 Blk

**Aircraft Noise**

- 1) Airport noise is a constant nuisance! Low flying planes and jets are both bad.
- 3) Jets should be banned.

**Fumes/Soot**

- 5) I have allergies that are aggravated by these fumes. In general air pollution is a local and national concern. 7) Hard to know what causes it. 8) The airport should be closed and directed to open space/parkland.
- 

38

[no date] Federal Ave. 3200 Blk

**Fumes/Soot**

- 3) Our pool and backyard [?] are covered in black soot and grease. 7) YES—black greasy dust.
- 

39

[no date] Everglade 12500 Blk

**Aircraft Noise**

- 1) Ban the jets! 3) Ban the C and D jets.

**Fumes/Soot**

- 7) Car and house. 8) This airport is in the middle of a residential neighborhood and it should reflect that. Ban the bigger jets.
- 

40

05/30/08 Rose Ave. 10700 Blk

**Comment**

- 8) Jet aircraft traffic should be unacceptable in such a highly populated area. It seems that the health costs and the intrusive noise are consequences our community is forced to endure for the convenience of the few.
- 

41

03/30/08 Navy St. 12100 Blk

**Comment**

- 8) Constant presence of jets creates a tainted environment.
- 

42

03/16/08 Moore St. 3900 Blk

**Aircraft Noise**

- 1) Prop noise is rarely ever a nuisance. I actually find prop noise rather nice, as it reminds of flying as a kid. 3) I notice [jet noise], but it is not a nuisance. If I lived under the traffic pattern, I would find it overwhelming.

**Fumes/Soot**

- 5) Noticeable, but vehicle fumes are a much greater concern. 7) Mostly pollen.
-

43

03/16/08 Colby 3200 Blk

**Aircraft Noise**

1) I also have lived in Venice with the same problems. On weekends I can't have conversations outside.

**Fumes/Soot**

7) Always—esp. on window sills or inside if windows open. Lots on car.

---

44

03/16/08 Wade St. 3400 Blk

**Fumes/Soot**

5) Quite annoying. 7) Lawn furniture must be constantly washed.

---

45

03/16/08 Westgate Ave. 2800 Blk

**Aircraft Noise**

3) The length of time jets spend at the east end of the runway can be truly maddening.

**Fumes/Soot**

7) It is constant and had become part of house cleaning.

---

46

05/04/08 Short Ave. 12700 Blk

**Aircraft Noise**

1) Cloverfield Park is too noisy.

---

47

03/30/08 Corinth Ave. 3700 Blk

**Aircraft Noise**

1) While I don't live right under the flight path, it still affects me and the enjoyment of my home. 3) This is a real problem! The noise can even reach ME!

**Fumes/Soot**

5) Environmental concerns in general. This will affect the people living and working near the airport. 8) This airport should be a SMALL plane airport, NOT a jet airport. Indeed, perhaps it is time to close it down. There are other airports that can and should be used.

---

48

04/27/08 Navy St. 12300 Blk

**Fumes/Soot**

5) Is there anything other than sit at the end of the runway and vent fuel? This is overwhelming. Can more barricades be built? 8) Asthma, breathing issues, noise after 9pm or before 7am.

---

49

03/11/09 Matteson 12700 Blk

**Aircraft Noise**

1 & 3) I notice it from time to time but do not consider it a nuisance.

**Fumes/Soot**

7) All over Los Angeles I notice soot. 8) I don't live too close to it, honestly.

---

50

03/16/08 Walnut Ave. 2400 Blk [90291]

**Fumes/Soot**

7) (Not from aircraft anyway.)

---

51

03/16/08 Mitchell Ave. 12500 Blk

**Aircraft Noise**

1) We've been here for 10 years and have noticed a big increase of plane traffic over our home.

**Fumes/Soot**

5) It isn't healthy for our children or us to be exposed to these fumes. 6) [notice fumes] living in our community. 8) Airports and family homes should not be in such close proximity.

---

52

03/16/08 Boise Ave. 3700 Blk

**Aircraft Noise**

1) Jet noise is most intrusive, however.

**Fumes/Soot**

5) Fumes deposit oily drops on surfaces like cars. 7) Car surfaces.

---

53

04/16/08 Mountain View 3500 Blk

**Aircraft Noise**

1) [Do not notice noise, prop noise] unless I am in the plane! 3) Walt Davie proposed changing the jet fuel composition to everyone at a meeting recently. Include Mr. Rosendahl.

**Fumes/Soot**

7) Not from airplanes but from blowers of gardeners. 8) Petition to have the jet fuel composition changed so the odor is not annoying.

---

54

03/16/08 Lyceum Ave. 4000 Blk

**Aircraft Noise**

1 & 3) I don't hear the noise from my home, but it is intrusive when I am at friend's closer to the airport and at parks in the area.

**Fumes/Soot**

5) My son played/practice soccer at Clover Park in Santa Monica and the fumes were overwhelming and noxious. I also notice then when driving in the area. 7) I don't know if [soot] is from plane fumes. 8) I am fervently opposed to any increase in usage of Santa Monica Airport. The airport is inappropriately situated in a residential neighborhood and already has a deleterious effect on resident's health.

---

55

03/30/08 Barry Ave. 3700 Blk

**Aircraft Noise**

1) I don't mind prop aircraft noises. 3) There is no need for jets at S. M. Airport.

**Fumes/Soot**

5) Jets are very bad. 7) Closer to the airport. 8) Ban the jets.

---

56

03/30/08 Mountain View Ave. 3500 Blk

**Fumes/Soot**

5) I don't smell it at home but do when I go to the dog park and walk up Grandview. 8) It's wrong that a few enjoy the convenience of our airport at the expense of many others who live in the community.

---

57

04/13/08 Grand View Blvd. 4200 Blk

**Aircraft Noise**

1 & 3) Usually, it is a nuisance. Every once in a while, it is extremely intrusive.

**Fumes/Soot**

5) Although I do not smell it, I know there can be physical consequences and I do not like it. 7) My car gets dirty quickly, even though I park in a garage at work. 8) I recently bought my house and the noise of the airport should be a required disclosure.

---

58

04/10/08 Ashwood Ave. 3600 Blk

**Comment**

8) I'm VERY concerned about one of these aircraft crashing into my neighborhood: especially a jet.

---

59

04/12/08 Penmar 1400 Blk

**Aircraft Noise**

3) I think its "cool" looking and the noise is no bother.

**Fumes/Soot**

7) Probably more to do with cars and trucks. 8) Safety, maybe install a airstrip runoff safely measure. Thank you.

---

60

04/13/08 Mitchell Ave. 12000 Blk

**Aircraft Noise**

3) I am concerned about jet fuels or toxic substances in the air.

---

61

04/13/08 Pacific Ave. 12600 Blk

**Aircraft Noise**

1) Smaller, slower props (Cesna) on Sundays "clear" day are [?] intrusive. 3) Curtail larger jets. Set traffic asps and noise cap (DBI).

---

62

05/03/08 Barry Ave. 2700 Blk

**Comment**

8) Kids have asthma and concerned about the fuel dropping down into our yard.

---

63

03/20/08 Wade St. 3400 Blk

**Aircraft Noise**

1) I do not mind the noise of propeller aircraft. 3) I especially mind jet take offs after 10 pm. I especially mind the older, louder jets.

**Fumes/Soot**

5) I am very concerned about the long term health effects of the fumes on those of us exposed daily to them. 6) I notice fumes when driving near the airport, which is daily, and sometimes windows and vents are closed so I do not smell them. 7) We also have air purifiers at home which capture this dark soot, especially at ground level. 8) The substantial increase in jet traffic over the past 6 years (up by 30+ %) has changed the nature of our neighborhoods in terms of quiet, peacefulness, quality of life, as well as the as yet undetermined health issues of the added jet pollution. Finally, the possibilities of another plane crash, especially because of the jet and runway mismatch in terms of length, is quite scary. Even for those of us who live beside the airport, we travel on the roads at both ends every day.

---

64

05/05/08 Glenavon Ave. 1500 Blk, Venice

**Fumes/Soot**

5) This issue concerns me most. 8) I worry about our air quality living so close to an airport. I would like to know how bad it is with factual documentation.

---

65

04/25/08

Westgate Ave. 2700 Blk

**Aircraft Noise**

- 2) My children have to cover their ears every time we're outside—they can't enjoy being outside.

**Fumes/Soot**

5) Horrible. Even when we're inside the fumes trickle in through small opening at the doorway or they come through from the attic. 6) The fumes can be overwhelming especially since I have asthma. 7) [Soot] on fruits, window sills, furniture outside. 8) It is so difficult to feel comfortable inviting people over to sit outside for gatherings because of the fumes and the loud noise—its down-right embarrassing sometimes. It is our right to have an environment that is not bombarded by pollutants.

---

66

04/30/08

Westgate Ave. 2700 Blk

**Aircraft Noise**

- 3) The nose can be too much. You cannot sit outside especially on Fridays and Sundays.

**Fumes/Soot**

5)The fumes are terrible. Every hour we smell the fumes, sometimes many time in one hour. 6) The fumes are killing us. Many residents on our block have had cancer. 7) [Soot] on my lawn furniture, car and plants. 8) I cannot sit outside with my grandchildren to play because the smell is too much.

---

67

04/26/08

Westgate Ave. 2700 Blk

**Aircraft Noise**

- 3) I have to leave my door close because I can't hear the TV or speak on the phone.

**Fumes/Soot**

5) I have to keep my door closed because the smell is so bad. When it's summer it's worse. 6) It gets too hot in the summer to close the door but the smell is so bad. 7) [Soot on] lawn furniture, car, fruit trees. 8) I am concerned about the fumes and the toxic waste it brings.

---

68

04/30/08

Westgate Ave. 2700

**Aircraft Noise**

- 3) It's too loud for my ears.

**Fumes/Soot**

5) This is a terrible smell when I go outside. 6) I can't breathe sometimes because it's so strong. 7) The door and the windows—lots of dust. 8) I have asthma so the smell is really bothering me.

---

69

05/15/08

Morningside Way 1300 Blk

**Aircraft Noise**

1 and 3) I take lots of business phone call at home and have to put people on hold constantly because of airplane noise.

---

70

**Aircraft Noise**

1) Small prop planes were already flying here when we bought, so I accept them.  
3) Some jets make it so you cannot hear anything—TV, phone, conversation. So annoying when you miss a punch line or have to ask someone to repeat!

**Fumes/Soot**

5) I especially don't like the residue on patio furniture. On the occasions the fumes are bad, I have to go indoors because I have congestive heart failure. 6) I would notice it more if I were home more, or outside more. 8) I am also concerned about safety and the inadequacy of the runways for the larger jets. Also, some planes cut short the landing pattern and turn from the side rather than go straight from the 405 freeway.

---

71

05/04/08

Woodbine St 12500 Blk

**Comment**

8) It is worse than ever.

---

72

04/12/08

Barrington 2600 Blk

**Comment**

8) I never used to get chest colds before I moved here. Now I can't seem to shake them.

---

73

[No date]

Frances Ave 3900 Blk

**Fumes/Soot**

5) I think they are there and are not good. 7) [Soot], but from smog.

---

74

[No date]

Colonial Ave 3700 Blk

**Aircraft Noise**

3) I hear it but it doesn't bother me.

---

75

04/13/08 Stewart 3700 Blk

**Fumes/Soot**

5) Not a problem where I live. 8) Not a problem for me.

---

76

04/13/08 Beethoven St 3700 Blk

**Aircraft Noise**

1) I prefer that people fly propeller aircraft from a fuel economy perspective. I feel that the emissions would therefore be less. 8) I think it is important that the community have its say in this matter.

---

77

04/13/08 Windward Ave 12600 Blk

**Comment**

8) Not happy with the pollution!

---

78

04/08 Falmouth Ave 8600 Blk

**Fumes/Soot**

6) Asthmatic conditions. 8) My friend's 1 yr. old child is developing asthma, and I'm sure the flights aren't helping.

---

79

06/01/08 Wade St 3300 Blk

**Aircraft Noise**

1) The noise doesn't bother me. 8) I believe the airport is a nice addition to the neighborhood. Children can visit and it is open space with side parks.

---

80

06/01/08 Mitchell Ave 12600 Blk

**Fumes/Soot**

5) There are enough pollutants in the city as it is. 7) All over my house/car (including inside!)

---

81

06/01/08 Bernard Ave 200 Blk

**Aircraft Noise**

1) [Prop] Noise is of short duration and not that often. However, loud at times. 3) [Jets] very noticeable but of short duration. I accept the noise as a part of having the airfield here.

**Fumes/Soot**

5) I am west of airport in flight pattern. 8) (9) Comment. I think if one is annoyed by noise or fumes there is plenty of fairly inexpensive remedies they could put in place to protect themselves and deal with it. And not evade their responsibility to protect themselves.

**Aircraft Noise**

1) The health and environmental impact of the plane's "chem. trails" are a serious health hazard to human, animals, birds, as well as plants. 3) I'm concerned to be living under the flight paths because of what they "emit". I find myself cleaning off "strings" of things off my screens and yellow and black "stuff" off of my glass patio table. Very disturbing.

**Fumes/Soot**

4) I am seeing an environment toxicologist—hoping to heal myself. 7) Black "debri" strings of a white substance that sticks to my screens. 8) I find dead bees on a weekly basis. I have skin lesions, brain fog, memory loss, among other things—and have been tested to have unusual chemical imbalances in my body such as ammonia and carbon monoxide! Sorry I went right to the "ailments" that I now have. I SO want to be a part of your awareness.

**Aircraft Noise**

1) I hear the [prop] noise, but it doesn't bother me anymore than car traffic. 3) [Jet noise] is very bothersome at night and early in the morning.

**Fumes/Soot**

5) This is my biggest concern. The fumes are so bad that I need to move. 6) It's especially difficult in the summer. I want to have my windows open to keep the apartment cool, but I need to close them because of the fumes. It's very frustrating! 7) I've noticed the amount of soot that enters my home or I find on my car has increased dramatically over the past few years. 8) The jet fumes are so bad that I need to move. This is hard because I have a low rent from being at my apartment for many years, and I will have to pay a lot more to move where there is clean air. I think banning the larger jets and limiting the number of smaller jets could fix the fume situation. I'm very sad because I love my neighborhood and I feel I'm being forced out to protect my health.

**Aircraft Noise**

1) Helicopters flying very low over our home off the designated flight path create lots of noise. There seem to be a daredevil/reckless plane (small blue) flying low at least 1x per week. I'm worried about that. 3) I can smell jet fuel at times. The jets land or take off as late as 11:30 pm. I can hear loudly and clearly jet propulsion 3 blocks away. It has increased in noise tremendously over the past few years.

**Fumes/Soot**

5) I feel it in my throat and sinuses after a crazy Sunday of planes coming and going. 6) I can smell it every day but Sundays are the worst. 7) My allergies have definitely gotten worse over the past few years due to the increase of jet fuel fumes. The noise level makes it difficult for my family to enjoy our backyard on the weekends. My home value is affected!! I realize the airport existed before I move here in 2003 but my neighbors and I were never meant to endure the level of noise or toxins SM Airport is currently generating.

8) Things will be much, much worse if they close the airport. Remember, the 1984 Airport Plan was a response to the city of Santa Monica's plan to convert the airport property into the largest office park west of the Mississippi. They

planned to funnel all the traffic into Bundy Ave in Mar Vista. Do you think they won't resurrect a similar idea??

That said, jet traffic needs to be limited to smaller, less noisy, intrusive airplanes. For a start, our governor can cut out his daily commutes!

It shouldn't even be called AM Airport quite frankly. How are the residents of SM affected by any of this? I've lived here my entire 39 years of life in my grandparents home, the nose gets worse every year. I've been breathing crap for 39 years but I love this area and won't move. 1) We can live by the noise coming from propeller aircrafts. 3) The noise is overwhelming when jets are passing overhead. We have to stop talking to or listening to each other.

**Fumes/Soot**

5) The fumes so overwhelming I wanted to stop breathing outside, and like to invite the FAA to take some samples of the air. 6) Busy days the fumes are just stays over the east side of the runways and poison all living and breathing things. 7) All our plants, houses, furnitures (outsides) are covered with a greasy layer of blackish soot. 8) Our life completely changed since jets are flying in and out from S.M. Airport. Outdoor activity became not existent due to noise from jets and fuel emissions coming with the breeze at take offs.

I fully understand, the times are changing but because of some wealthy celebrities and influential people, the FAA should enforce their laws for the protections of all concerned. Just like in any society, we all are abide by laws or otherwise take the [consequences?]. Please put back the no jets sign, just like before you /FAA/ sneak the new rules (1984) over our head. Hope for better quality of life.

1) Even with windows and doors shut, I cannot hold a business conversation on the phone when low flying jets are landing. My business is in my home. Propeller aircraft are not nearly as loud. 3) Although I'm not easily overwhelmed, we all have our limits. I can't even check voice mail when jet aircraft are landing and have to redial.

**Fumes/Soot**

6) Jet run-ups and while waiting for takeoffs pollutes the air so badly at time it affects nasal passages, taste buds, and breathing. 7) It grows worse every month. Keeping doors open for an hour a day puts dust on everything, requires re-cleaning. We no longer can get "fresh" air into our house except on rainy or foggy days. 8) Years ago I watched a jet flying too low over Richland Elementary, which increased thrust as to increase elevation—blasting leaves from the playground into the street. Thank God it was a weekend or kids would have been injured. The FAA officer I spoke with just laughed when I insisted on turning in the pilot as drunk or incompetent: it turns out the pilot was shuttling then-President Reagan to a fund raiser here in L.A. and was handpicked by the air force for the job. Reagan was the FAA officer's highest level boss and I was "turning in the boss". So much for safety. The FAA in my experience is the most arrogant and elitist group of do-nothing officials that exist. There may be nothing anyone can do short of taking the law into their own hands to get their attention; here's hoping that none of us have to resort to anything so drastic.

5) THERE ARE NO FUMES=SILLY, however particles of some unburned fuel from jets are found on leaves. 6) You cannot notice any fumes—who came up with that argument? 7) As above, believe some partly or unburnt particles are found on the leaves—jets only can produce. 8) [Other concerns] None—It is lovely to follow variety of approaching aircraft. I think there are a lot more serious issues to deal with. The nature of the airport is what it is. **Fumes/Soot**

7) Plants die, covered with soot, garden furniture, window sills all black at times really bad. 8) The presence of the SM airport nearby was all right when ONLY propeller aircraft were using it. Since jet planes have been allowed to use the

airport, our life quality has decreased. On weekends we cannot sit in our back yard because of the noise level and inside the house each jet plane passing over interrupts conversation. Maybe the SM airport should banish the jet planes entirely and provide double panned windows to all residents who are affected by the noise and pollution (like in EL Segundo). There is also the risk of a crash, as it happened before.

**Aircraft Noise**

1) We have lived in our house for 33 years, we have become accustomed to the noise from prop planes and only notice really loud planes. 3) We use closed-captioning on our television so we don't miss the audio and we installed double-paned windows to block jet noise. Keep windows closed and install air conditioning which we would not have needed if we could keep windows open.

**Fumes/Soot**

5) We live one block east of the airport at the end of the runway! We used to keep our windows open all of the time, now it is impossible. We have a beautiful back yard we can no longer use. 6) Fridays and Sunday afternoons are particularly bad. Most evening around 7pm is bad as well. 7) Our patio furniture, house trim, deck and our lemon trees are covered in black particulate soot that cannot be washed off with just water. Requires Simple Green and sponge to get off, then leaves a stain. 8) My husband was born and raised within 1 mile of the airport almost 60 years ago. He bought this house knowing there was an airport nearby, neighborhood history says a plane even crashed into the tree in our front yard; we are not complaining about the airport as it was originally intended to operate! The jets are a noise, safety and health nuisance. Many of the take offs sound as loud as anything you would hear being at LAX and listening to a jet airliner take off or land. The soot (like black dust) on my house and patio is ruining our paint and wood. We cannot eat the fruit from our lemon trees. We cannot open our window. It definitely affects our lifestyle!

**Aircraft Noise**

1) It is mainly on takeoff the revving of the engines. Also seems jets are getting bigger creating more noise. 3) Some of the corporate jets come in so fast for landing it is extremely loud.

**Fumes/Soot**

5) I have lived here for almost 5 years—more noticeable when I have guests over. 6) I notice it rarely—because has become normal—friends and relatives always notice it. 7) my car all the time. 8) I am sure the fumes from the jet fuel are toxic and the decibel level of jet engines cannot be good for one's hearing.

04/14/08

Federal Ave 3400 Blk

**Aircraft Noise**

1) I notice propeller planes overhead, but it's seldom a nuisance. 3) With low cloud cover and a big jet taking off, it can sound like I'm standing on the tarmac.

**Fumes/Soot**

5) I'm far enough away that the fumes dissipate, but I can still smell them sometimes. 6) Maybe once every 2 weeks or so. 7) Oranges on tree in back yard are constantly covered with black soot. 8) The size and noise of jets at SM airport is very inappropriate for the area. I am concerned that the size, speed and jet fuel creates a much more serious hazard to residents if there were a crash, compared to smaller, lighter slower prop planes.

**Aircraft Noise**

1) At my location at the corner of Marcase I notice the planes but I do not feel bothered by planes. 3) My sister lives at National and Barrington and when I visit her, the noise and smell of jet fuel is obnoxious and noxious.

**Fumes/Soot**

5) The diesel component of the fumes aggravates my allergies (to pollen, trees, grass and weeds and mold.) 7) Mysterious spots of orangey stuff on cars. 8) Crashing (it happened on MV Hill in '04) Why weren't they redirected to another airport since it was cloudy? That was just wrong! The jet fuel issue is very serious. There could be better—more restrictions on the jets! Smaller jets only? More restrictive times of day to land?

267

**Aircraft Noise**

1) [Prop noise] A nuisance some days more than others. Helicopters seem to be hovering over our home much of the time. 3) We mostly hear the jets idling and we've grown used to the noise. But many times our yard, front and back is overwhelmed by fumes.

**Fumes/Soot**

5) The fumes are strong. We don't like having to chase the kids and dog inside, but it happens often. 8) We feel we're in the direct path of idling jet fumes. Our children are both asthmatic, so it's a big issue for us.

**Aircraft Noise**

1) I don't hear propeller A/C. 3) [Jets a nuisance] because I usually hear it at nite (10pm - 3-4am) when I'm trying to sleep or relax. 8) The crash factor is a

concern because there is no void area between airport and residences for a pilot to maneuver in the event of something going wrong on T/O or landing. Most A/C accidents occur on T/O or landing.

**Aircraft Noise**

1) [Props] occasionally very loud—drowns out radio right next to me. Has gotten worse since we moved in—1994. 3) [Jets] not as often as propellers. Has gotten sores since we moved in—1994.

**Fumes/Soot**

5) Sometimes I notice fumes walking on Grand View near National Bl. 7) [Soot] but I doubt it's from aircraft—likely tire particles, car stuff.

**Aircraft Noise**

1) I don't live close enough to notice the noise from small aircraft. 3) I notice the noise of larger aircraft when driving by the airport. I live near Bundy, so drive by routinely.

**Fumes/Soot**

5) It horrifies me that the fumes might increase above the current levels. 8) My cell phone calls always drop out when I drive past the airport on Centinela. I really don't want radio-tower activity increased in such a way that the call-drop zone expands.

**Aircraft Noise**

1) I hear the noise but do not mind it, as it reminds me of the valuable services provided by the airport to the city. This survey is severely weighted towards eliciting a negative opinion, which is unethical. 3) I notice the noise but do not mind. Please see comment above. It is important to realize that some people in the community who have no vested interest in the airport none the less appreciate its importance to the city both economically and in terms of emergency services provided by EVAC and CAP pilots.

**Fumes/Soot**

5) [”...your attitude concerning fumes that seem to be related to jet fuel emissions...”] This is a horribly biased statement. Even if it’s true the following questions then elicit a reaction to a statement that is not established as fact. I do

not live close enough to the airport to notice any fumes. 6) When visiting the airport I occasionally smell fumes. But I am in very close proximity. Out outside the airport boundary I have not noticed it. 7) [Soot] only during fire season. 8) As mentioned on the previous page, the airport provides an important point of contact for emergency services, as well as taking some commuter air traffic load away from LAX which would otherwise cause further congestion and delays there. I understand concerns about noise and pollution. However the FAA has conducted multiple noise surveys around the airport and found levels to be consistent with federal guidelines, and in many cases lower than might be expected for an airport with its level of traffic.

**Aircraft Noise**

1 and 2) Last Friday I was at home between 4 PM and 5:30 PM, and there was constant noise between propeller and jet planes—every 3-4 minutes something was landing or taking off. On Sunday, between noon and 1:30 PM, I took a walk south of Palms, East of Centinela, and there was constant airplane noise at that time also. Maybe some planes were from LAX? I walked a couple of time toward S.M. Airport (West of Centinela) and the air near the airport was clearly polluted. 3) The noise is very annoying in the middle of the night (between midnight and 4 AM). Even if I am fairly far from the airport, the noise wakes me up because my bedroom is on the second floor facing the airport. I am not home most days, but during the morning and at dinner time, it seems almost constant.

**Fumes/Soot**

5) I am at the back of a building—on West side of Centinela, so the airplane fumes mix with car fumes. 7) I get a lot of black sooty dust—but it is impossible to tell between cars and airplanes. 8) There is much more large jet plane traffic than use to be and some planes arrive and take off between midnight and 5 AM – which should be outlawed at least.

**Aircraft Noise**

1) The small propeller planes are loud when they fly low, right over the house but not near as bad as the small jets we have now taking off and landing. 3) I have a daycare and the children are scared by the noise. In the last 20 years aircraft have gotten bigger and louder. I thought we had limits at this airport in size and noise. I guess not.

**Fumes/Soot**

5) I'm very concerned about the air in our neighborhood due to heavy traffic on Beethoven and the small jets in the air due to the airport. 7) It looks like black dust every so often on the cars. 8) I'm concerned that they will continue to allow bigger and noisier jet aircraft at this airport. I'm also concerned about possible plane crashes due to the length of the runways in proportion to the craft size. We need to have strict limits on the size and noise of jets. I don't think they should have ever been allowed. Its getting worse! The helicopters are also loud.

1) Especially the small home-made planes—the sound is piercing. 3) The jets are the worst! They have gotten much noisier and more frequent over the years. They are too big for a local airport.

**Fumes/Soot**

5) At times, it smells terrible. It gets all over patio furniture and cars... and we're breathing this stuff. 8) I have lived here for 20 years, and during that time 2 or 3 planes have crashed into houses, after takeoff or on approaches. The amount of air traffic and the size of the aircraft have to be scaled back for the safety of the neighborhood.

**Fumes/Soot**

6) Every day it permeates the neighborhood. 7) All my windows have black soot. I've lived here 40 years and never experienced this greasy black dirt—it is also on all my white wood trim on home. 8) I feel that if this black soot is over everything—then we are breathing this. 1) Low Flying aircraft should not be allowed. Sometimes they fly directly overhead. 3) Morning and late afternoons—takeoffs are intrusive—especially on Sundays.

**Fumes/Soot**

5) Nothing noticeable by me. 8) The low flying propeller aircraft fly too low and should not be allowed to go anywhere they wish—it's clear some look down into backyards. Jet aircraft should be reduced in size/engine power and restricted.

---

376

Spring/Summer 2008            Corinth Ave 3500 Blk

**Aircraft Noise**

1) I notice it when home on weekends. The small planes repeatedly fly a pattern overhead. 3) I live far enough away that [jet noise] is less noticeable, but when closer it is unbearably loud. 8) I believe all the aircraft flying in and out of S.M. Airport pose a hazard to nearby areas. There must be more controls and limits, greater precautions mandated. Helicopters fly too low over neighborhood—I'm thinking of others than police. And jets and planes looking for the airport on foggy nights is scary.

1) Especially the older propeller aircraft seem to be the noise polluters. 3) We don't live that close to the airport, but as we walk in the neighborhood, we are affected, even if we do not walk close to the airport.

**Fumes/Soot**

5) Only when driving by the airport on Centinela. 8) I believe that excessive noise can do great harm to the health of people. Therefore, older aircraft and noisy jets should be banned from an airport that is embedded into its neighborhood like SM Airport.

---

1) Charming old fashioned small planes are no intrusion and fun to see. 3) Not so much noise—annoyingly large planes—seemingly commercial in their size are rude and vulgar.

**Fumes/Soot**

5) We live by the beach for cleaner air. Smaller propeller planes are no problem. Large loud smelly planes are offensive and will make our air unhealthy. 8) Overindulgent massive jet planes are simply not appropriate—should land at larger scale site—their significant increase in recent 2/3 years is gross and inappropriate.

There are times when I hear planes every 3-4 min. Can be Very overwhelming and intrusive at nights—interferes with sleep. With double paned insulation can also hear inside. 3) At times planes can be heard every few minutes. Even with windows closed, they interfere with having quiet indoors as well as outside.

**Fumes/Soot**

5) I occasionally smell fumes. Uncertain of the source. If on can smell fumes, its likely they affect asthma sufferers, plant life, breathing. 7) [Soot on] fruit from

Safety. 1) A plane crashed into a house on this block 2-3 yrs ago. Clearly there are safety issues. Health. 2) Fumes may be increasing respiratory symptoms, breathing, plant and animal life.

1) I like the planes overhead and have taken my kids and many others to SM Airport to watch the aircraft activity over the last 42 years we have lived here. 8) Airport is older than most homes. Peoples should not buy by an airport, then complain. I'll bet most who complain use aircraft for business or private travel. I love the airport and was smart enough to buy where we did. Of course there is soot, dust, etc. Can that be only caused by air traffic? Of course not!! 8) We are also in the landing pattern of LAX. Are you hoping to close them next? We are far enough So. East of SMA so it is not a concern 2-3 miles). We know homeowners directly South East have a lot of noise and fumes, however.

1) [Props] Sometimes I hear them. 3) [Jets] I hear them every so often.

**Fumes/Soot**

5) I smell it if the breeze blows right. 8) No safety concerns. I am a student pilot and I will tell you that the pilots are taught to respect the neighbors and noise abatement procedures. Yes, you hear the airport sometimes But no worse than the 405 at times.

454

Spring/Summer 2008 Inglewood Ave 3200 Blk

**Aircraft Noise**

1) Propeller-driven single engine land aircraft based at SMO form the Emergency Evacuation Air Corp. (EVAC) provide a service by bringing Police and Fire Fighters into SMO during emergencies. 3) I live several blocks south of SMO and still hear jet noise occasionally. SMO's runway is too short for most jets to land safely. There is also no Approach Safety Area. A jet crash on final will burn many homes and people.

**Fumes/Soot**

7) The soot that builds up both inside and outside my house may be from cut thru traffic on Inglewood as well as jet aircraft.

**Aircraft Noise**

1) Propeller aircraft do not interrupt daily activities—their presence is fine. 3) [Jets] 10:30 pm and later take off wakes us up—disrupts daily activities. Much worse these past few years.

**Fumes/Soot**

7) Fruit trees, tomatoes, flowers—and even plants on atrium with opening only at top are covered. 8) L.A. Basin air is polluted already from cars and nearby freeways (i.e. San Diego and Santa Monica, 405 and 10). These jets add more to air and cannot be healthful to breathe over several years.

**Aircraft Noise**

1) I visited the airport with my small children since they were 2—the airport was a source of joy and a great education too! 3) People who purchase homes under the flight path so do with full knowledge of pros and cons and houses are significantly discounted. If someone doesn't want this—shouldn't buy a house here.

**Fumes/Soot**

5) Never any experience of any fumes—this is simply excuse to close the airport and continue massive overdevelopment. That is the REAL problem here. 6) I've lived here 19 years and never noticed fumes of any kind. 7) No residue experienced in 19 years of close proximity to the airport. 8) I believe this survey is biased. I have lived here 19 years and the Santa Monica Airport has contributed significantly to my and my children's lives—The closure of small airports has reached epidemic proportions and it is harmful to society as a whole. Why not look at real problems. Overdevelopment and overcrowding—building monster houses inches from each other—

**Aircraft Noise**

1) I am under the flight path into LAX—police helicopters sometimes hover noisily—night or day. 3) Sometimes the wind will carry the sound in my direction—south of SM airport.

**Fumes/Soot**

5) [Don't smell jet fumes] However, I so get to smell exhaust fumes from trucks and cars from the pet feed store parking lot next door and traffic on Centinela Ave. 6) Not from aircraft—it is from cars and trucks. 7) A thick carbon-like gunk on windows—it is from the traffic on Centinela Ave—and maybe the big jets flying into LAX. 8) Trees cropped bare of air cleaning leaves—and I'm surrounded by high rise wires. Cables strung upon poles, TV cable hook ups to neighboring apartments, transformers on those tall poles—and all that heavy morning and evening traffic on Centinela Ave. I miss that wonderful flight museum we used to have at SM Airport.

**Aircraft Noise**

1) [Props] When they do training circuits. Some are quiet. Some are like airborne Harleys. 3) [Jets] very occasionally. Not a huge problem. The prop planes with noisy engines are worse for us.

**Fumes/Soot**

5) We are far away and upwind. [Notice fumes] Very occasionally. 7) Wipe a surface, any day, there is black dust. Very fine dust or soot. 8) Restrict how low the noisy prop planes can fly, or make them fit a silencer. Some make no noise, so it is possible. Also make the repetitive loops out over the ocean, not where people live.

**Fumes/Soot**

5) We are not close to airport. However, there is overall poor air quality. 7) Did not realize possibility of relationship to planes. 8) Jets should be allowed to fly infrequently, if at all. Restrict hours. Noise is a major intrusion.

---

469

Spring/Summer 2008                      Palms Blvd 12200 Blk

**Aircraft Noise**

1) Propeller planes come over our house at relatively low levels occasionally. They sometimes sound as if their engines are "stalling out" temporarily. Is this part of pilot training exercises? 3) [Jets intrusive] This happens occasionally, not every day, but it is, indeed, exceedingly noisy when it occurs!!

**Fumes/Soot**

5) Ordinarily, we notice the great increase in dust and residues inside our home and on our vehicles that result from increased traffic on Palms Blvd, probably, rather than from jet aircraft. 7) This has happened to our vehicles occasionally—we believe it has more to do with auto traffic than aircraft in our location. 8) Traffic on Palms Blvd is so heavy during morning and afternoon rush hours, we sometimes have problems getting in and out of our driveway. This is not new, of course, and we have been in this house 35 years ( as of 6/13/08). The situation has appreciably worsened in the last 5 years. Since L.A.'s population is almost exactly one million more than in 1973, this problem is probably inevitable.

1) Some of the noise makes me wonder if the plane is in distress—some have crashed in recent years. 3) We walk up Mar Vista Hill almost daily. We put our hands over our ears when one of these planes is taking off or landing.

**Fumes/Soot**

7) My mailbox (on the west side of my house) gets a coating of black greasy grit. Window sills and porch also get the same grit. 8) The jets taking off and landing are an assault on our quality of life—more noise, more pollution. Taken together they make our area less pleasant and degraded.

Spring/Summer 2008 Rose Ave 12800 Blk

**Fumes/Soot**

7) I have a table and chairs in my patio and I have to wipe them every day as they get black soot. My overhand is white and when it rains the water is black. My window sills all around the house get dirty also the screens and that's what we breathe. This has to be corrected.

---

493

3) The constant "drone" of jet engines idling is annoying. At times the noise from takeoff penetrates our closed doors and windows. And we're ½ mile away! 8) After 14 years here I have become somewhat used to the noise of the smaller craft, the jets seem to be more frequent and the takeoff noise sometimes drowns out conversation of those standing out on our street chatting.

1) The questions do not cover all possibilities. I do notice such sound sometimes, but I do NOT find the sound to be a nuisance. 3) Again, I hear the noise/sound, but they do not bother me. This is not the same as "do not notice any noise." 8) I do not have quality of life concerns. There is an existing noise abatement rules of SM Airport that stops take off after certain time. This rule should be enforced. Maybe increase the fine for violation. Otherwise, the Airport is FINE.

3) Jet noise is especially objectionable late night or early a.m. 8) The frequency of planes and especially jets—and the size of jets—has increased beyond what is reasonable to this community. ---

502

Spring/Summer 2008 Federal Ave 3200 Blk

**Aircraft Noise**

3) Airport should be restricted to smaller jet aircraft w/ minimal noise. (As it had been for many years.) 8) The noise from the larger jets has disturbed our quiet neighborhood and affects our quality of life. **Aircraft Noise**

1) Some older jets are noisy—prop planes [??] when they don't adjust there prop bite into the air and are noisy. 3) [Jets] They rev their engines as part of a safety check. Jets who take off early morning, I find very inconsiderate.

**Fumes/Soot**

5) I think they stink. So do buses. 7) [Residue] A lot of dog poop from inconsiderate people in our neighborhood. 8) I think Santa Monica and some pilots need to be more responsible and considerate. Santa Monica doesn't need the money from Corporate Jets so they should give higher fines or Don't let them in. Small airports are very important for our safety. In case of Earth Quake (land equipment, food, people), and sad to say it was here first! Pilots need to be more responsible and held accountable.

**Aircraft Noise**

1) Some prop planes are deafening—others not. There should be decibel limits on engines. 3) Jets are almost commercial size now—too big, very loud. Deafening. For 1 or 2 people—very wasteful and selfish of space.

**Fumes/Soot**

5) I am in the landing flight path. [Never notice fumes] but I have asthma and it is bad for anyone with breathing problems. 7) [Residue] I didn't associate this with airport but with freeway. 8) A few excessively wealthy individuals are very

negatively impacting the lives of thousands. Jets should be banned completely unless the noise is eliminated. And large private jets should be banned in any case.

**Fumes/Soot**

- 5) The fumes waft through my yard and through my screen door, such that I can't be outside and must close all doors and windows. It's like being at the end of a taxi way at LAX.
  - 6) This is especially true on week-ends and between 4-8pm.

**Aircraft Noise**

- 1) I notice the noise, but has never bothered me over the last 28 years. Increasing aircraft traffic since 9/11 has become a nuisance.
  - 3) There are times on certain days where there is a constant outgoing/incoming of jet aircraft. The noise is overwhelming, especially when one is outside.

**Aircraft Noise**

1) S.M. Aircraft not significant noise compared to approaching LAX traffic and police helicopters. 3) Hardly audible. Hear LAX departures more often. 8) Cannot drive in neighborhood without bumps, humps and poor pavement. Must avoid inconsiderate home builders. Parking across driveway. Large vehicles blocking view of oncoming traffic.

**Aircraft Noise**

1) I notice prop plane noise occasionally, but I live next to an airport. What else would I expect?! 3) I notice jet plane noise occasionally, but isn't that natural since I live next to an airport?!

**Fumes/Soot**

5) I notice the jet fume small, but it doesn't bother me. I live next to an airport; what else would I expect?! 8) I'd rather have the airport stay as-is than have continued Santa Monica College expansion. The occasional airport noise is nothing compared to the growing traffic gridlock on Centinela/Bundy and Walgrove. I'm more worried about more tagging in Mar Vista alleyways and growing traffic problems than the airport, which was here way before any residents were.

8) From about 3-7 pm. Everyday there is a series of helicopters, private jets, and prop jets [?]. If I am outside, I have to go in and if I have guests we have to stop our conversations.

8) The noise is unbearable. The Airport impacts negatively on the traffic near the airport.

**Aircraft Noise**

1) The prop planes are less intrusive compared to the jets. 3) I can think of NO benefit to us having Jet aircraft fly in and out of SM Airport.

**Fumes/Soot**

7) The windows and back side of the house, plus all plants are covered w/ black residue, it's disgusting. 8) We have also noted more aircraft flying directly over our home in recent years and a huge increase in planes. The soot in the yard is everywhere and has ruined many pieces of yard furniture, killed plants and created a need for more frequent house paintings, very costly—the allergies have increased 10 fold.
